+91 9019751746 | gowdathilakn@gmail.com | [LinkedIn](#) | Bengaluru, Karnataka

PROFESSIONAL OBJECTIVE

Third-year Computer Science Engineering student (B.E., DBIT, VTU) with a strong academic record and hands-on experience in web application development. Skilled in Python, web technologies, and database systems, with certifications in AI and ML. Proven ability to manage projects, adapt quickly, and lead teams. Passionate about applying technical expertise to solve real-world community challenges.

EDUCATION

DON BOSCO INSTITUTE OF TECHNOLOGY – Bengaluru

Oct 2023 - Jul 2027

Bachelors of Engineering in Computer Science and Engineering

Bengaluru

8.4CGPA

Relevant Courses: Python Programming, C Programming, Machine Learning , Java Programming

SSM PU COLLEGE–Bengaluru

Jul 2021 -Apr 2023

Pre-University College

Bengaluru

80 percentile

Physics, Chemistry, Mathematics, Computer Science

SKILLS

- **Programming Languages** Python, Java, JS, C
- **Web Technologies:** HTML, CSS
- **Frameworks & Tools:** Git, VS Code
- **Data Visualization & ML Tools :** NumPy, Pandas, Scikit-learn, Matplotlib, Seaborn, pyTorch, NLTK
- **Data bases:** SQL, MySQL, SQL-Lite

PROJECTS --

Aug 2024 - Dec 2024

Heart Disease Prediction Web App:

Built a machine learning model using Logistic Regression and deployed it via Flask with an interactive web form for real-time prediction.

Gemini Clone :

Developed a Gemini AI Clone using React.js with responsive UI, real-time chat via REST APIs, React Hooks, and modern UX principles for dynamic, intuitive conversational interface and smooth user experience

C Based Voting System:

Built a Personal Expense Tracker using React.js, HTML, and JavaScript with dynamic expense summaries, real-time updates, responsive UI, and intuitive layout for seamless daily tracking and efficient user interaction

Finance and Customer Transaction Analysis:

Built a finance analytics system using Python and ML to predict spending trends. Designed interactive HTML/CSS/JS dashboards, applied data pre-processing, and delivered real-time insights into customer behavior and transactions.

CERTIFICATIONS

-Database Management System

-Java Programming

-Modern Artificial Intelligence Masterclass

-Python visualization

-Python in data Science

-Angular Stack

-Software Project Management

-HTML and CSS

-Operating System

OTHER ACTIVITIES

Currently working on AWS under the guidance of AWS experts
